### DETAILED ACTION

1. The claims as amended in paper number 02052003 are not in proper reissue format in accordance with 37 CFR 1.173 (b)-(e). Claims 1-22 as originally filed should be enclosed in brackets and claims 2, 4-6, 9, 11-14 as amended should be renumbered as new claims 48-56 and should be completely underlined.

#### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

[Although applicant overcame the previous statutory double patenting rejection with the amendment of 020532003, a non-statutory obvious-type double patenting rejection now applies.]

2. Claims 2, 4-6, 9 and 11-14 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-22 of copending parent Application No. 09/231,854. Although the conflicting claims are not

identical, they are not patentably distinct from each other because they are an obvious grouping of the claims in the parent application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

### ***Oath/Declaration***

3. Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth above. A new oath/declaration is needed with the filing of a terminal disclaimer as the original oath/declaration is not sufficient to cover the errors that have been corrected in the application since the filing of the original oath/declaration.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 2, 4-6, 9, 11-14, 27, 29-31, 34 and 36-39 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

### ***Information Disclosure Statement***

4. The examiner notes that a new information disclosure statement was filed on 08/31/2004 in the parent application 09/231,854. Since the present application is a

continuation of the '854 application, the examiner requires the same information disclosure statement to be filed in response to this office action.
